| VOC's (% as is): | 8.0 |
| Conformance: | Manufactured by an ISO 9001:2015 registered company. |

Comment:

For a complete list of kill claims, see the product label. Excellent choice of products for cleaning up blood borne pathogens.

Directions

FOR USE AS A GENERAL, HOSPITAL, MEDICAL DISINFECTANT, VIRUCIDE*:

Pre-clean visibly soiled areas. Apply this product to disinfect hard, non-porous, non-food contact surfaces with a sponge, brush, cloth, auto scrubber, mechanical spray device, hand pump trigger spray device. For spray applications, spray 6-8 inches from surface. Do not breathe spray. Treated surfaces must remain visibly wet for 1 minute to kill SARS-CoV-2 and 10 minutes to kill all organisms listed on the label. Wipe dry with a clean cloth or allow to air dry. Rinsing of floors is unnecessary unless they are to be waxed or polished. Change solution when visibly dirty.

Description:

AFBC Acid Free Bathroom Cleaner is a one-step ready-to-use hospital-use germicidal disinfectant cleaner and deodorant designed for general cleaning, disinfecting, deodorizing **and controlling mold and mildew on hard, non-porous surfaces**. This product cleans quickly by removing dirt, grime, mold, mildew, body oils, dead skin, blood and other organic matter commonly found in hospitals and in health care facilities, nursing homes, schools and colleges, day care centers, medical offices, funeral homes, veterinary clinics, pet shops, animal life science laboratories, hotels, motels, public areas and restrooms, and foodservice establishments.

Benefits:

- Ready-to-use.
- EMERGING VIRAL PATHOGEN – Monkeypox virus
- AFBC-Acid Free Bathroom Cleaner has demonstrated effectiveness against viruses similar to Monkeypox virus on hard non-porous surfaces. Therefore, this product can be used against Monkeypox virus when used in accordance with the directions for use against Hepatitis A virus and Porcine rotavirus with a 10 minute contact time on hard non-porous surfaces. Refer to the EPA website at <https://www.epa.gov/pesticide-registration/disinfectants-emerging-viral-pathogens-evps-list-q> for additional information
- Disinfects, deodorizes, and cleans in one operation.
- Controls mold and mildew.
- VIRUCIDAL* PERFORMANCE: This product kills the following viruses in 10 minutes on hard, non-porous surfaces with 5% soil: Avian Influenza A (H5N2) Virus, Avian Influenza A (H5N1) Virus, Hantavirus, Herpes Simplex Virus Type 1, Herpes Simplex Virus Type 2, Human Immunodeficiency Virus Type 1‡ (HIV-1) (AIDS Virus), Hepatitis C Virus, Hepatitis B Virus, Human Coronavirus, Influenza A (H3N2) Virus, Influenza A (H1N1) Virus, Respiratory Syncytial Virus, Vaccinia Virus, Hepatitis A Virus, SARS-CoV-2*** (COVID-19 virus).
‡ Indicates a 2-minute contact time is required for this claim.

Pesticide Disposal:

Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

Container Disposal:

Non-Refillable Container. Do not reuse or refill this container. Triple rinse container promptly after emptying. Triple rinse as follows: Fill the container 1/4 full with water and recap. Shake for 10 seconds. Drain for 10 seconds after the flow begins to drip. Follow Pesticide Disposal instructions for rinsate disposal. Repeat this procedure two more times. Then offer for recycling if available or puncture and dispose of in a sanitary landfill, or by incineration.
